## Garage- No UL Paint Booth Supplement

---

In the absence of a "UL" approved paint booth, the following will suffice:

1. Booth is completely sealed from the rest of the shop area.

2. Exterior switches for all electrical items.

3. Explosion proof lighting.

4. Exhaust fan.

5. Booth built of material such as concrete, block, brick, ect.

\*No frame construction unless covered by at least 5/8" fire rated sheetrock.

6. Adequate fire extinguishers.

7. Paint and other flammable materials are stored in a fire proof cabinet.

Please review and advise that the insured has complied with the above.
